M&K have been pioneers in the design, manufacture, installation and support of innovative material handling and resource recovery solutions since 1977. Our innovative turnkey solutions & life cycle services offering's represent the lowest sustainable cost per ton solutions available on the market.

Our key markets are recycling, energy & quarrying.

## OUR STRATEGY

M&K's ambition is to be number one and best in class technology and service provider in all the businesses we are in.

## OUR OBJECTIVE

Our objective is to provide our customers with a lifetime of high performance and high profitability based on long term relationships. We endeavour to provide our customers with sustainable value through;

- highest standards of equipment & service
- better process performance
- improved Productivity
- maximum plant availability and reduced downtime.
- best value proposition

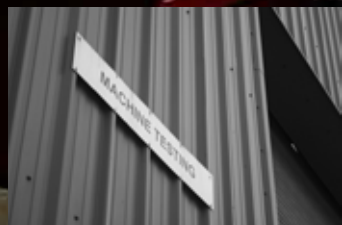

## OUR VALUES

Our 4 key values are;

- innovative, world class products & systems
- uncompromising customer service
- attention to detail
- long term customer relationships

## WHAT CAN M&K OFFER

- Experience, M&K were established in 1977.
- Commitment to establishing & maintaining sustainable long-term customer relationships
- Consultative Approach
- Profound knowledge of customers' processes
- Strong technology know-how
- Service orientated philosophy
- Attention to detail
- Safety
- International reputation of the M&K brand
- Significant resources at our disposal to provide sustainable customer value
- Financially secure

Process more material, minimise downtime, build profitability

*"the most professional company we have ever worked with. The quality of the equipment is fantastic... we can see where our money has been spent. M&K's service is the best in the business!! M&K even installed the new plant around the old plant...we were only down for 1 day!!!! We were astounded when they notified us that they would be returning to site 'to complete snags'..we didn't even know there were any snags!!! Could not recommend M&K enough"*

**Bernie Hughes | Operations Manager | JM Murdoch Ltd**

*"We are as pleased as punch with the new M&K system. We could not recommend M&K products & services highly enough"*

**Ian Crate | Director | Able Waste**

*"We spent 2 years researching the market before investing in our new MRF. We visited several sites. M&K's equipment is the best in the business. Even M&K's competition, who have visited my new M&K plant, several times, have admitted that quality of the equipment is superior to their offerings. The exceptional Service that M&K offer was an unexpected bonus"*

**Alun Price | Director | Bryn Recycling**

*"the build quality is German. I am very impressed. Photographs & videos don't do the quality of the equipment justice"*

**Stewart Melrose | Director | Scotwaste**

*"We are flabbergasted at the level of support from M&K"*

**Colin Grieve | Manager | Scotwaste**

*"The Equipment and service provided by the M&K Trommel Fines Solution was second to none and we could not recommend their products highly enough. The MK Group went out of their way to make sure everything ran as smoothly as possible and they have helped our business run much more economically and efficiently"*

**Martin McLindon | Director | NT Waste Solutions.**
